Excellent written and verbal communication skills, overall positive attitude and enthusiastic to learn and grow.

Work History

2021-04 - Current

Jr. Digital Developer

R&R Partners, Phoenix, AZ - Remote

- Developed and maintained websites, landing pages, HTML emails, and other digital assets for a wide variety of brands including Boeing and LVCVA.
- Worked remotely, created plans, and communicated deadlines to ensure projects were completed on time in a fast paced environment.
- Identified issues, analyzed information and provided solutions to problems.
- Onboarded and trained third-party developers on live video chat. Also created documentation and training videos for an in-house CMS.

2021-03 - Current

Front End Developer

Local Food Marketplace, Remote Contract Work

- Developed and maintained the user experience for an application that allows farmers to keep track of their products.
- Converted Adobe XD design files into pixel perfect responsive web pages.
- Collaborated with in-house web designers to create sleek and innovative UI designs.
- Collaborated with stakeholders during development processes to confirm creative proposals and design best practices.

2020-05 - Current

Front End Developer

Dark Matter Consulting, Remote Contract Work

- Developed and maintained user experiences for both customer facing websites and internal admin dashboards.
- Converted Adobe XD design files into pixel perfect responsive web pages.
- Collaborated with in-house web designers to create sleek and innovative UI designs.
- Collaborated with stakeholders during development processes to confirm creative proposals and design best practices.

2020-04 - 2021-04

Hackathon Volunteer

Open Eugene, Eugene, OR

- **Summer Create-A-Thon** - A remote hackathon to build a covid relief website helping local restaurants and food businesses, hosted by Democracylab & Open Seattle.
- **National Day of Civic Hacking** - 12 hour hackathon to build White Bird Clinic's "LittleHelpBook.com", a resource guide for the community.
- **Hack to Give Thanks 2020** - Hackathon to create a web page in response to local forrest fires to help people evacuate and find refuge.
